1. I am forwarding the attached collection guidance from the DDI's Office of European Analysis, which has begun assessing West European interests and capabilities in the Strategic Defense Initiative (SDI) research and development field. As part of the assessment, analysts need to know how the West Europeans might respond to possible US overtures for a joint research program and what technologies they might contribute should they choose to participate. Information is specifically requested on France, West Germany, Italy, and the United Kingdom as soon as possible to help begin drafting a research paper in February 1985. [redacted] 25X1
